

Economic Nexus Audit

Report ID: 92e348eb

Generated: 2026-08-16T18:09:41Z

Reference date: 2026-08-16

States: 46 analyzed, 10 exceeded, 4 approaching

DISCLAIMER: This is a monitoring and research aid -- NOT legal, tax, or CPA advice. Economic nexus thresholds, measurement periods, and marketplace-counting rules are sourced from public guidance and may be outdated. The CPA must independently verify each state's rules before advising the client.

Validation Checks

[PASS] A -- Sales totals: Shopify \$145,372 across 46 states, Amazon \$2,225,732 across 46 states
[PASS] B -- No double-count: No duplicates after source dedup
[PASS] C -- Marketplace rule completeness: All states have marketplace counting rule set
[PASS] D -- Window consistency: Period types in use: 12mo_ending_sep30, current_or_prior_calendar_year, prior_12_months, prior_4_quarters, prior_calenda...
[WARN] E -- Data coverage: Coverage gaps in 6 states: HI, ME, NM, SD, WV, WY

Data Coverage

Shopify: 1375 records, \$229,135, dates 2023-09-01 to 2026-08-31
Amazon: 1627 records, \$2,910,246, dates 2024-01-01 to 2026-08-31

Section A: Needs Registration (5 states)

States exceeding or approaching economic threshold AND not yet registered.

State	Window	Status	Shopify \$	Amazon \$	Counted \$	Thr \$	% Dol	MP?	Conf
CT	10-01 to 08-16	APPROACHING	\$1,796	\$31,355	\$33,151	\$100,000	33%	Y	hig
NC	01-01 to 08-16	APPROACHING	\$3,732	\$77,033	\$80,765	\$100,000	81%	Y	hig
NV	01-01 to 08-16	EXCEEDED	\$1,621	\$34,160	\$35,781	\$100,000	36%	Y	med

Coverage: Shopify data starts 2025-06-01, window starts 2025-01-01

Methodology

1. Sales records are loaded from sales_by_state table, deduplicated by source priority (SP-API > CSV).
2. Per-state measurement window is applied (current/prior calendar year, rolling 12 months, etc.).
3. Shopify (direct) sales always count toward the seller's economic nexus threshold.
4. Amazon (marketplace) sales count toward threshold ONLY if the state's marketplace_sales_count_toward_threshold rule is true.
5. For 'or' test states: nexus exceeded if dollar threshold OR transaction threshold is met.
6. For 'and' test states (NY, CT): BOTH dollar AND transaction thresholds must be met.
7. counted_sales = shopify_sales + (amazon_sales IF marketplace_counts ELSE 0).
8. Amazon collecting and remitting tax does NOT automatically exempt seller from economic nexus obligations.
9. Registered states still show threshold math -- registration does not erase economic history.

DISCLAIMER: This is a monitoring and research aid -- NOT legal, tax, or CPA advice. Economic nexus thresholds, measurement periods, and marketplace-counting rules are sourced from public guidance and may be outdated. The CPA must independently verify each state's rules before advising the client.
